OPERATIONAL ALIASES:

SECRET

MISCELLANEOUS:

Subject was employed by the Army shortly after World War II as a penetration into certain illegal organizations, but this work was terminated in 1947 when Washington objected to the use of a man with Subject's IS background. He worked with UPSWING, Co. D. St. 23 and its predecessor organizations since prior to March 1948, and was last reported officially in June 1955 as a Forcher and Special Connection of the Dienststelle with an area of operations in the Munich area. In October 1951 (MOBA-10297), it was suggested that KUBARK possibly utilize Subject against UPSWING, but this was immediately sketched by POB.

Following pages are a reproduction of MEMO-6547, 18 October 1950, which gives an excellent review of Subject's early career.
